

ChargePoint

ChargePoint session in Urbana August 18, 2021

Level 2 in UI parking garage (B4) near Beckman

Simple understandable screen with buttons - used contact free Credit Card - no sign up needed

(I do have a ChargePoint account - but didn't use it to learn accessibility for those without.)

If you have an account you get updates by email and text.

Added 5 miles, cost \$0.31 time 15 min. Estimate 100miles, \$6.30 4 hrs

(A very short charge exact miles and % charge may not be accurate)

Generally a 6.2kw charger like this would give 25 miles in one hour.)

There are about 5 ChargePoint locations in the Champaign-Urbana-Savoy area

A few other L2 chargers by other providers show up on the ChargePoint App

I did this short charge mostly to learn how the equipment and software works.
